

## Rhetoric School (9-12) Supply List 2020-21

---

To be successful at CCA, students need to maintain a clear system for organizing their school notes, papers, assignments and supplies. Though there are a variety of systems that can be effective, there are some essential guidelines that must be followed for every student and every organizational system.

- Notes for each class must be kept in separate places! Trying to keep notes from every class intermixed in the same notebook just adds confusion.
- All papers that are turned in must have clean edges! This means that every paper a student turns in to a teacher must be either loose leaf paper, or paper with a clean perforated edge. This is also true for all graph paper in math classes.
- Students must have a way to keep every test, quiz, and essential document that is distributed in each course during the semester. Other handouts may be discarded according to teacher preferences, but there will be some things that students should hold on to for the duration of the term.

If you are not sure which system to use, we will be glad to work with you to help you find the right one that works for you.
